AFTER THE BANQUET,

Man Feels Well But It's Different in the Morning.

AND YET IT'S SO EASY TO AVOID THE DARK BROWN TASTE, FOR SCIENCE COMES TO THE RESCUE. A MAGIC MICROBIC KILLING TABLET.

Good fellowship does it. You eat too much and wash the good things down with too much drink.

The good time ends in a muddled condition, and the stomach is never muddled than the head.

Think of mixing up the various lots of food you eat at a dinner, from soup to nuts, in one receptacle, and adding half a dozen different kinds of drink, alcoholic and otherwise. Stir the mixture up well, and imagine what a sickening mess it would make.

Yet that is what you do in your stomach, and your digestive apparatus can't handle it. So the horrible stuff takes a night's lodging in your overburdened interior and sours there.

All this fermentation of undigested food, with its evil consequences, can be easily avoided, all that is necessary is to take a tablet of Cascarets Candy Cathartic before going to bed, and you'll feel all right in the morning.

You don't need to forego the pleasures of jolly companionship if you will take this advice.

It's what Cascarets do, not what they say they do, that proves their merit. All druggists, 25c, or 50c, or mailed for price. Send for booklet and free sample. Address: Sterling Remedy Co., Chicago, Montreal, Can.; or New York.

MEXICAN PROGRESS

Increase of the Middle Class Through Growth of Industries.

MODERNIZING OF THE CAPITAL CITY

Restriction of Liquor Selling Being Considered.

FEATURES OF STUDENT LIFE

Special Correspondence of The Evening Star.

CITY OF MEXICO, March 18, 1901.

Modern Mexico is an institution of such recent growth that life in this country is still a curious mixture of the fifteenth and twentieth centuries. The first visit of a citizen of the United States to this country should always be followed by a second visit before any attempt is made to institute comparisons or fix impressions. The man who comes here year after year notices with intense interest the slight yet enormously important changes constantly taking place. Those who journeyed in this direction ten years ago were probably correct in making the broad assertion that there were only two classes of people—the masses and the aristocracy. It is a serious question now whether this is strictly true, for modern methods have brought into existence a middle class such as exists in every country where there is work of skilled character to be done and business of moderate proportions to be carried on.

The safety of the great powers and the source of their wealth and strength lie in the selection of the best men for this class a country must necessarily be at least a plutocracy in its approach to an unlimited European market.

GOSSIP FROM GOTHAM

J. P. Morgan Closing Up Details of Big Steel Deal.

HIS TRIP TO EUROPE DEFERRED

New Customs Rules Have Stopped Much Smuggling.

CHECK ROOM FOR BABIES

Special Correspondence of The Evening Star.

NEW YORK, March 27, 1901.

J. P. Morgan has returned from the pier and he is now busily engaged in the work of putting the finishing touches on the billion dollar steel combination, which will pass under the corporate name of the United States Steel Corporation.

Mr. Morgan will not wait until all of the stock of the constituent companies has been deposited with him. Inasmuch as more than 90 per cent of the stockholders of the various companies have signified their approval of the great financier's plans it is not likely that the minority holders will make even a feeble protest.

Mr. Morgan, it is said, will defer until next month his proposed European trip, in order to attend to the consolidation of the various steel companies. The United States Steel Corporation is expected to commence operations some time this week.

Messrs. Rockefeller and Stillman, the latter the head of the National City Bank, will, it is expected, take a prominent part in the selection of the new officers of the company. Mr. Morgan has planned to sail next Wednesday on the Oceanic, but it is now expected that he will not be able to undertake the voyage until the first of April. He expects to return in time for the international yacht races.

It is expected that one of the first meetings of the company will be held at East Orange, N. J. It is said that the presidency of the United States Steel Corporation will be given to a man who is allowed to hold the place for the year, as was offered to President Schwab. It is said that the exact amount of the annual salary of the president will be \$100,000.
